Skills

- Core Logic & Development:** C • C++ • HTML • CSS • JavaScript • Streamlit • Full-Stack Basics
- Cloud & Database & Security:** AWS (Cloud Practitioner) • IAM • Cloud Fundamentals • MongoDB • Authentication
- CS Fundamentals:** Operating Systems • DBMS • Computer Networks • Data Structures & algorithms
- Professional Traits:** Solo Project Builder • Problem Solver • Fast Learner

Projects

Truckido, India — Solo Founder | App Developer (January 2026 – Currently working) :

- Designed and planned an on-demand truck booking mobile application to solve real-world logistics and transport challenges.
- Applied startup-oriented product thinking, user flow design, and solo project execution.
Tech Stack: Flutter (planned), Firebase (planned), REST APIs, UI/UX Design

StreAM (Stress Analyzer & Manager), India — Full Stack Developer (Jul 2025 – Nov 2025) :

- Created a full-stack web application to analyze user stress levels and provide categorized daily wellness goals.
- Integrated frontend and backend logic to manage stress categories and user interactions.
Tech Stack: HTML, CSS, JavaScript, Python, Streamlit, VS Code

Graphical Password Authentication System, India — Security Project Developer (Sep 2024 – Nov 2024) :

- Built a secure authentication system using graphical passwords to enhance resistance against brute-force and shoulder-surfing attacks.
- Designed authentication workflows focusing on usability and security best practices.
Tech Stack: Python, MongoDB, Authentication Logic, Security Concepts

Education

2023 – PRESENT	CGPA/Marks(%) Bachelor of
Technology (B.Tech)	8.03
Graphic Era Hill University, Dehradun, India	
2022 – 2023	
Senior Secondary (Class XII) U.C.S.K.M Public School , Bhiwadi , Raj.	80%
2020 – 2021	
Secondary (Class X) U.C.S.K.M Public School , Bhiwadi , Raj.	86%

Achievements & Certificates

- Completed AWS Cloud Practitioner training and multiple AWS certifications via **AWS Skill Builder**, gaining strong understanding of cloud fundamentals, IAM, and security responsibility models.
- Participated in a **24-hour hackathon**, collaborating under time constraints to design and implement
- Earned **NPTEL certification in Database Management Systems (DBMS)** through the IIT/NPTEL platform.
- Authored a **research paper based on an Operating Systems project**, focusing on **CPU scheduling algorithms** and their practical learning outcomes.
